

# Expert for Tire Standards and Regulations (m/f/d) (Europe Technical Center)

---

As a globally active manufacturing company with more than 22,000 employees worldwide (4,000 in Europe) and higher-than-average growth and development in the European Union, Hankook Tire offers advanced tire solutions for many applications. For many years, the company has been a supplier to the international automotive industry (including Audi, BMW, Ford, General Motors, Hyundai/Kia, Mercedes-Benz, Mini, Volkswagen) and top motorsports. Hankook's tires often win awards in independent product tests and boast excellent EU label reviews. Commitment to sponsorship at international level – for example as an official partner of the UEFA Europa League - also contributes to increasing brand awareness.

Hankook Tire Europe Technical Center (ETC) based in Hannover, Germany is one of Hankook Tire's five global R&D centers (along with Korea, United States, Japan, China) and is responsible for the development and testing of tire solutions for European road conditions – working together with premium European vehicle manufacturers. Indoor test operation and quality control for European tire production in Hungary are also controlled by ETC.

**The following position at our location in Hanover is to be filled on a permanent basis:**
