

# OE Tire Development Engineer(m/f/d)

---

As a globally active manufacturing company with more than 22,000 employees worldwide (4,000 in Europe) and higher-than-average growth and development in the European Union, Hankook Tire offers advanced tire solutions for many applications. For many years, the company has been a supplier to the international automotive industry (including Audi, BMW, Ford, General Motors, Hyundai/Kia, Mercedes-Benz, Mini, Volkswagen) and top motorsports. Hankook's tires often win awards in independent product tests and boast excellent EU label reviews. Commitment to sponsorship at international level – for example as an official partner of the UEFA Europa League - also contributes to increasing brand awareness.

Hankook Tire Europe Technical Center (ETC) based in Hannover, Germany is one of Hankook Tire's five global R&D centers (along with Korea, United States, Japan, China) and is responsible for the development and testing of tire solutions for European road conditions – working together with premium European vehicle manufacturers. Indoor test operation and quality control for European tire production in Hungary are also controlled by ETC.

**The following position at our location in Hannover is to be filled on a permanent basis as soon as possible:**

## OE Tire Development Engineer (m/f/d)

### **Your Tasks:**

- Develop high-performance tires independently for the European original equipment
- Manage and monitor the development process up to market launch
- Serve as technical contact for our customers in the automotive industry
- Collaborate with our R&D Center in South Korea

### **Your Profil:**

- Degree in mechanical engineering or automotive engineering
- Proven Experience in the development of tires for original equipment
- Strong communication skills and teamwork in an international work environment
- Ability to work independently, high resilience, and flexibility
- Willingness to travel abroad on a regular basis
- Fluent English, both spoken and written; German and/or French would be beneficial

### **What is awaiting you?**

- An inspiring work environment that nurtures your ideas
- Flexible working hours
- 30 days of vacation per year
- Regular team activities
- Opportunities for further education to continuously grow
- Free beverages and lunch provided
- Attractive employee benefits for Hankook tires
